LOCKOUT NOTICE

Beginning Monday, October 14, at 8:30am, West Coast Ford Lincoln is suspending all work by members of the bargaining unit in the Service and Parts Department. During this lockout, no member of the bargaining unit may enter the workplace. Please note we only took this step after the Union escalated its job action on October 10th, 2024.

West Coast Ford Lincoln remains committed to reaching a fair and reasonable agreement with the Union on the issues that remain outstanding. In our most recent proposal, we offered what we believe to be a higher Tech Base Wage and Qualified Parts Person Base Wage than is paid by our competitors.

Please note that West Coast Ford Lincoln will continue your benefits during the Lockout if the Union takes steps to ensure payment of the premiums in accordance with the Labour Relations Code.
